## .NET Developer

Are you experienced with .NET and C# programming? Are you interested in modern technologies and building WPF and ETL apps and services for Windows?

Good news, Casenet is hiring! We are looking for motivated, team oriented individuals from junior to senior skill levels to join our US based software company making a powerful impact in the healthcare industry. We are now hiring employees and interns for our Prague office located in the heart of the city to work on an interesting WPF project.

We're looking for somebody who will ...

- Implement/code functional and non-functional requirements in C#
- Participate in architectural reviews and designs
- Collaborate with other members of the architecture, engineering and QA teams
- Interface with our US headquarter employees, specifically other developers, architects, business analysts and DBAs to participate in requirements definition and implementation
- Work fulltime at our Prague office (onsite) for at least 2 months (intern candidates)

Required skills

- A basic WPF+MVVM knowledge is a must
- Visual Studio and C#/.NET programming experience
- Strong written and verbal English
- Ability and desire to learn new technologies
- Analytical thinking
- A positive outlook, friendly attitude, a passion for software engineering and the ability to work as a part of a team

We offer

- A competitive salary
- Work for an exciting, fast growing international company
- Work with leading technologies and experts in the field
- Great work environment and friendly team
- Downtown Prague offices, located at Revolucni street, 2 minute walk from the subway/metro

Are you interested? Please send your CV to:
