Branch Board statement:

Required attachments – see page 2

¹ Cross out not applicable.
² Include private e-mail, too.
1. Four copies of dissertation thesis (up to 150 pages) in fixed bond; technical drawings; models etc. are submitted in one copy only. The thesis must comply with the conditions set out in Article 3 of the Dean's Directive for the Defence of Dissertation Theses at FEE.

2. Professional CV, signed by hand.

3. Signed list of own publications (projects) including their responses (e.g. citations); the list is sorted into publications related to the dissertation topic and other publications; in both sections the publications are sorted as follows: impact factor journals of WoS SCI-Expanded of database Q1, Q2 or Q3 quartils, MathSciNet database journals, A* or A (CORE) conference papers, reviewed journals, patents, other WoS publications, and other publications; the list is supplemented by the share of co-authoring of doctoral students in individual publications unless the shares of all co-authors are the same, the shares must be documented with identical statement of all authors).

4. A signed list of completed courses on FEE.

5. Supervisor's review, the supervisor expresses explicitly in the conclusion of the review whether he/she recommends the thesis for defence; the report must also include a specific statement by the supervisor on the origin of the thesis submitted, the new scientific knowledge it contains and the publication requirements of Art. 12 Para. 1 of the Doctoral Study Code at FEE CTU.

6. The statement of the doctoral student authorizing the immediate unlimited publication of his/her dissertation thesis in electronic form. In case the statement to publication is not provided the theses according to Art. 2 Para 3e) of the Dean's Directive for Dissertation Theses at FEE and of Para 7 of this document must be submitted.

7. Theses (20 pieces) are a separate document printed in A5 format and electronic PDF form, in the range of 10-20 pages containing the aim of the dissertation in a clear form, the state-of-the-art of studied problem, the essence of solution and the author's contribution to the solved problems, the most important original results. They also contain a complete overview of the published and unpublished works of the author sorted according to Para 3 or other forms of presentation (including those not directly related to the dissertation issue), responses to this activity (if known). In the list of publications, if more than one author is involved, the student shall indicate his/her percentage of authorship for each of them. The theses are written in the same language as the dissertation and it is obligatory that they are accompanied by a one-page annotation in English, respectively in Czech if theses are written in foreign language. The submission of theses can be substituted according to Para 6.

8. An honour statement by the doctoral student that he/she has worked independently, consistently quoting the literature used and explicitly determining his/her share of the submitted thesis.

10. Proving internationalization of the doctoral student according to DSC FEE, Art. 10 Para 3.
Agreement for publishing the dissertation thesis

I, Ing. John Student, resident od Science Street 1353/8, 123 45 Sciencefiction, born 01.01.2211, give CTU in Prague, the Faculty of Electrical Engineering (hereinafter FEE) permanent, irrevocable consent to publish my dissertation thesis called:

New Method of High Voltage Mitochondrial Protection.

Publishing can precede the defence of the dissertation and also the review process.

I also clarify that this dissertation does not infringe upon the copy rights of third parties and that I am aware of the fact that it is necessary to submit potential patent applications before publishing the dissertation.

Prague, date: .................................................. Signature ..........................................................
Honour statement

Name and surname of the doctoral student:

I declare that I have written my dissertation thesis independently and consistently quoted the sources in the submitted work.

Specification of the author's share:

Prague, date ................................................ Signature .................................................................

---

3 If some parts of the dissertation originated in co-authorship with other persons, the doctoral student verbally specifies his/her share.
Co-author means a person who has contributed creatively to the creation of a dissertation, for example by designing and conducting studies and experiments, by contributing to analysis, interpretation, theoretical data processing or modelling, participating in the design and implementation of experimental devices, or participating in writing the dissertation.
Otherwise, the doctoral student will state: “The presented dissertation and the presented results were created without the co-authorship of others.”
